februar 2018

This module is compatible with version 2013 R2 to 2017 of MS Dynamics NAV

## Manage changes and reschedule your production orders – flexibility for your manufacturing planning

### Flexible Planning and Rescheduling for Increased Competitiveness

With this module, you can easily manage and operate your “make to order” and “engineering to order” production. You can decrease your planning-, inventory- and total production costs due to the flexibility in bill of materials and activity dates.

## Features and Main Functionalities

- Rescheduling of work in progress
- Forward, backwards, and bottleneck scheduling
- Process transparency due to correct planning dates on all your orders
